Mud Sill Works Impressively in Preparation for the Kentucky Derby—Reports of Training Operations at the Louisville Tracks.

Louisville, Ky., April 26.—Two Kentucky Derby candidates worked impressively at Churchill Downs this morning. They were W. H. Pizer's Mud Sill and Colonel Hogan, from the barn of Henderson & Hogan, which received his early spring training in California. Mud Sill covered a mile and an eighth in 1:57 1/2 and was so rank that the boy had difficulty in keeping him straight. But for this zizzagging over the course he would have worked a sensational trial. He went the first quarter in 25 1/2, three-eighths in 57 1/2, the half in 1:03 1/2, five-eighths in 1:35 1/2, three-quarters in 1:46 1/2, seven-eighths in 1:50 1/2, and the mile in 1:43 1/2. He appears to be fit.

Colonel Hogan pulled up almost to a walk in going three-quarters in 1:17 1/2. The fractionals were 12, 23 1/2, 36 1/2, 49 1/2, 1:02, 1:17 1/2, 1:31 1/2. This three-year-old has improved in appearance. None of the other Derby candidates did more than canter.

The Derby favorite Round the World, was shipped this morning to Lexington and will start in the Phoenix Hotel Handicap on Saturday. Trainer W. G. Yanke only took the filly Aragonese from his stable with Round the World, but he also shipped there for trainer William Walker Col. W. E. Applegate's two-year-old Skillee.

Other good work-out today were:

Agility—Three-quarters in 1:10 1/2. Fractionals: 24, 36 1/2, 49 1/2, 1:03 1/2. Is good.

Ben Lassen—Half mile in 54, eased up. Is good.

Felix—Half mile in 50 1/2. Smart colt.

Free Lance—Half mile in 50 1/2. One of George J. Long's eligibles to the Breeders' Futurity.

Likely colt.

Heine—Mile in 1:42 1/2. Fractionals: 23 1/2, 36 1/2, 49 1/2, 1:02 1/2, 1:15 1/2, 1:29 1/2. Extra good trial; seems ready.

King Olympian—Quarter mile in 23 1/2. Training nicely. Looks well.

Phalanx—Mile in 1:45 1/2. Fractionals: 25, 51 1/2, 1:03 1/2, 1:16 1/2, 1:29 1/2. Is fit.

Pinkola—Mile in 1:45 1/2. Fractionals: 35 1/2, 52 1/2, 1:04 1/2, 1:17 1/2, 1:31 1/2. In great form. Will be dangerous in any company this spring.

Robert Bruce—Mile in 1:47, eased up.

Sebago—Three-quarters in 1:17 1/2, cantering. Probably his last work before going to Lexington to race.

Snap—Three-quarters in 1:19, pulling up. Looks good.

Uncle Jimmie—Three-quarters in 1:17 1/2. Fractionals: 23 1/2, 36 1/2, 49 1/2, 1:03 1/2.

Upright—Three-eighths in 36 1/2; first quarter in 23 1/2. Extra good.

Yankee—Half mile in 53 1/2, easily.

Yankee Hirsch arrived from New York, whither he went following the close of the meeting at Juarez. Tonight he shipped his entire string to Lexington.

The racing strings of C. C. Van Meter and Peter Wimmer were shipped this morning to Lexington. The crack filly Beautiful, regarded as a likely factor in the Breeders' Futurity, was one of the racers sent. Mr. Wimmer took all of his horses except Beatrice, which went wrong and has been turned out.

Lon Jones brought his six racers from his farm today. He has several promising two-year-olds.

Trainer William E. Phillips has returned from Illinois. He has decided not to ship Topland and Henry Walbank to Lexington.

On account of the congestion at the Downs, J. W. May has been forced to reserve stalls at Douglas Park for his horses now at Lexington.

L. P. Doerhoefer's two-year-old, Tommie Thompson, which has been seriously ailing, is recovering.

Lon Johnson's Bob Hirsch, who was raced here, but on account of his lightness in flesh his trainer will not campaign him after the meeting terminates here.

LEXINGTON STAKE WEIGHTS ANNOUNCED.

Bonnie Kelso Assigned Post of Honor in Opening Day Feature, with Countess Next.

Lexington, Ky., April 26.—Weights for the Phoenix Hotel Handicap, estimated value \$1,400, for three-year-olds and upward, one and one-sixteenth miles, to be the fourth race on the opening day of the Kentucky Association's spring meeting next Saturday, were announced this afternoon by Secretary Will Shelley, as follows:

Horse.	A. Wt.	Horse.	A. Wt.
Bonnie Kelso	125	Colston	101
Countess	124	Foxy Mary	101
Polks	124	Wing Ting	101
Starbottle	124	Kootenay	100
Harrigan	118	Antenor	100
Angelus	115	Maezie	100
Console	113	Colonel Hogan	100
Princelike	110	Bertis	98
Mary Davis	119	Any Port	98
Joe Morris	108	Oracle	98
Cherryola	107	Princess Callaway	97
Descomnets	107	Love-Not	97
Boola Boola	107	County Tax	97
Round the World	107	Golden Egg	97
Royal Report	103	Exemplar	96
Helmet	103	Mindette	96
Star Blue	103	Bell Horse	96
Jupiter Joe	102	Bettie Sue	96

This race will have ten or a dozen starters, and it should prove a keen contest. Bonnie Kelso may not accept the issue, but Countess, Polks and Starbottle are practically certain to go to the post. Round the World can be put down as a certain starter. W. G. Yanke after looking at the weights said that he could see no reason why she should not start. The daughter of Lackford and Nellie Bly looks fit, and on reports from her work at Louisville she is ready. Console will go and so will Princelike. Joe Morris and Boola Boola are also probabilities. Colston may not be here. Any Port and Oracle will start and probably so will Cherryola, Foxy Mary, Golden Egg and Bell Horse.

About twenty-five horses came over from Louisville this morning and others are due tonight and tomorrow. Along with Round the World Mr. Yanke brought Aragonese and Skillee. They went into the stable with ten that Charles T. Patterson is training for Messrs. Yanke and Applegate. Peter Wimmer brought Any Port and Beautiful, the latter being his candidate for the Breeders' Futurity.

W. St. Vincent brought Annie Wells and Sam Barber, and along with him came jockey Denny. W. Phillips brought among others John Robert and Sayville. In J. L. Brown's lot is Enfield. C. C. Van Meter's list includes Robert and Dilatory, both of which are candidates for the Breeders' Futurity. Mr. Van Meter has engaged jockey Mountain to ride for him at this meeting.

The best move of the morning over a fast track,

THIRTY LEADING TWO-YEAR-OLDS

The time is near at hand when stake races of considerable value for two-year-olds will reach the point of decision and with their running marked changes may be expected in the comparative earnings of horses of that age. At present two young Abe Franks head the winning list and it is probable that no real star has appeared. Still Oakland and Ursula Emma have at least the distinction of having won all their races and Amon and Upright are held to be two-year-olds of more than ordinary merit by good judges. At present the thirty leaders in money won are the following:

with the weather clear and warm, was Boola Boola's mile and an eighth in 1:56 1/2, the mile being covered in 1:43 1/2. Governor Gray worked a mile in 1:44 with much in reserve at the finish. Golden Egg ran a mile in 1:45 1/2, handily. The gelding worked a mile in 1:43 1/2, ridden out. King's Daughter entered three-quarters in 1:20. She looks good. Other moves were: Three-quarters—Barleythorpe, 1:16; Cowdin, 1:15; Ethelda, 1:16; Epicure, 1:17; Hanley, 1:15; Ilma, 1:16; King Solomon, 1:15; Five-eighths—Joe Knight, 1:04; Colonel Holloway, 1:04; London, 1:03; Half mile—Wheelwright, 49; Practorian, 49; Irishtown, 50; Son, 50, and T. M. Green, 52, cantering.

Max Hirsch arrived from New York last night. His horses will come from Louisville tomorrow.

WON THE DERBY DESPITE MISHAP.

Henry Chaplin, the owner of Hermit, winner of the Epsom Derby of 1891, has written the following letter to Mr. Cooper, author of an article on the subject which appeared in The Westminster Gazette recently, and which had been controverted by a critic:

"You are perfectly right that about a fortnight before the Derby Hermit met with an accident; but not a slight one, for he broke a blood vessel somewhat badly, was confined to the stalls for some days, and did nothing but walk and trot about for some time till he got to Epsom. In consequence, although he had been first favorite all the winter, his chance was regarded as hopeless by the public, and indeed by everyone, excepting, I believe, by my old trainer, Bloss, and his owner, but Bloss did me that on the Monday after his arrival he had sent him a gallop over the whole course, and that he never went better in his life; did not blow a bit at the end of it, and he believed he would win after all. In the saddling paddock before the race he walked about disregarded by everyone and in that respect he may have been described quite truly as 'unnoticed.' Personally, I was afraid that he would break a blood vessel going up the steep hill at starting, as I told all my friends, but barring that, I was as confident as Bloss after what he had told me that he would win. I backed him again at the last moment at the long odds of 90 and 50 to 1, although I could induce hardly anyone to follow my example. Henry Chaplin."

Hermit won from Markham and the favorite, Vauban, and the Marquis of Hastings lost a fortune by the result. His loss was put at \$525,000. The day of the big plungers on the turf was then about passing and has never been revived, either in America or England.

HAMILTON JOCKEY CLUB'S STAKE RACES.

Another list of attractive stake races to appeal to owners is that now offered by the Hamilton Jockey Club. These events are eight in number and as they close for entries May 4 owners and trainers have no more than enough time to study conditions and make their nominations to those races which best suit the capacities of their horses. The races are for the club's first meeting, which begins June 17 and ends June 24. For this meeting, in addition to the stake races, the club offers a liberal program of seven races each day, with no purse of less than \$500 and a jumping race each day. The stakes to close are:

For Three-year-olds.

The Hamilton Derby, \$2,500 guaranteed; 1 1/4 miles.

For Three-year-olds and Over.

The National Handicap, \$1,500 added; 1 1/8 miles.

The Wentworth Plate, \$1,200 added; 3/4 mile.

The Tuckett Selling Stakes, \$1,200 added; 1 1/16 miles.

The Dominion Plate, Canadian bred, \$1,200 added; 1 1/8 miles.

Coronation Day Handicap, Canadian owned, \$1,000 added; 1 mile.

For Two-year-olds.

The Grant Spring Brewery Stakes, \$1,200 added; 5/8 mile.

For Four-year-olds and Over.

The Barton Steeplechase, \$1,000 added; about 2 1/4 miles.

Hamilton now occupies an important place in Canadian racing and its offerings are commended to American owners for prompt and hearty patronage. Conditions of the events offered appear elsewhere in this edition.

TWO THOUSAND GUINEAS WON BY SUNSTAR.

London, Eng., April 26.—The Two Thousand Guineas for three-year-olds at one mile, was run at Newmarket today with fourteen starters and was won by J. B. Joel's brown colt, Sunstar, by Sundridge—Doris, Lord Derby's chestnut colt, Stedfast, by Chaucer—Be Sure, finished second and J. B. Joel's bay colt, Lycon, by Cyllene—La Vierge, was third. Among the starters were H. P. Whitney's Iron Mask, James R. Keene's Runymede and Richard Croker's Clonbern.

A selling plate of 403 sovereigns for two-year-olds over the last half mile of the Rous Course, for which thirteen started, was won by H. P. Whitney's

bay or brown gelding by Hamburg—Jinks, with the bay gelding Glenagarry second and bay filly Acsu third.

Sunstar was a good two-year-old. His first start

was in the New Stakes at Ascot in which he ran fourth to Seacourt, Nestorian and Sandal. His next start was in the Exeter Stakes at the Newmarket First July meeting. This he won with Canvas-back second and St. Grooms third. Borrow ran unplaced.

His third appearance was in the Lavant Stakes at Goodwood, which St. Nat won with Sunstar second and Night Rider third. Then he won the International Two-Year-Old Plate at Kempton Park, his finishing second and Peggy Hyland third. His fifth essay was in the Champagne Stakes at Doncaster, for which he was third to Pietri and Wrinkler. He wound up his racing as a two-year-old by running a dead heat with Borrow for the Hopeful Stakes at the Newmarket First October meeting, but was lucky because Borrow failed to win outright through stumbling when near the finish. Mr. Joel was exceedingly fortunate in furnishing the first and third horses in such a world-famous race.

ANSWERS TO QUERIES.

P. S. Kalamazoo, Mich. In his race of April 18 Bendaza was 2 to 5 straight and out for place.

J. G. Newport, Ky. In such cases the usual practice is to settle at average odds and you are entitled to 30 to 1.

E. H. J. Chicago. The place bet on the Randolph entry was a draw, there being no place laid against it.

H. & C. San Francisco, Cal. The bet on Double Five was a draw, it being another horse that was entered and ran.

Robt. M. Chicago. Presuming you mean the horse Dick Welles, he belongs to J. B. Respass of Cincinnati and is now eleven years old.

Nic. Toronto, Ont. It all depends on you bet on Golden Castle for. If it was for your friend all the winnings belong to him. If it was for yourself nothing is due him.

T. M. Cincinnati, O. When there is enough money in hand to make the "if coming" bet it goes.

In the case named there was enough to make the Freed land bet and it should be paid.

J. C. C. S. Dayton, O. In the absence of specific instructions to the contrary, the ordinary practice is that the straight bet parlay is straight by itself and the place bet parlay is itself also.

In the case named Lowden would lose the straight parlay.

PRISCILLIAN MAY BECOME A JUMPER.

New York, April 26.—Priscillian, the six-year-old chestnut gelding by Hastings and Pimlico, will have to show high-class form in his spring starts, otherwise he will join the steeplechase brigade.

Prior to S. C. Hildreth's departure for Pimlico, Mr. Belmont discussed with Mr. Hildreth the advisability of sending the horse through the field.

Mr. Hildreth said that Priscillian is in as good condition as it was possible to get a horse and that his recent trials were first-class.

It was decided to continue to race the handsome son of Hastings on the flat.

Practical, the five-year-old brother to Priscillian, may get a course of schooling over the jumps before long. This horse is handled by trainer Louis Fustel at the course of the Westchester Racing Association at Belmont Park.

If a decision is arrived at whereby Priscillian is to be converted into a jumper, he will probably be shipped abroad and entered in cross-country events in France.

NEW YORK LEGISLATION RUMORS.

New York, April 26.—A story was published yesterday that Governor Dix would appoint a new State Racing Commission, which would recommend the repeal of the so-called directors' liability law and advocate a measure legalizing private wagers among individuals on race tracks. A steward of the Jockey Club when asked about the matter said:

"I have no authentic information on the subject. I believe it is time for the appointment of a new commission and I understand that there will be something doing in the way of racing legislation at Albany. But I cannot say in just what form it will appear. The state and county fairs are deeply interested in the repeal of the liability law, as it will affect them as much as the racing associations. If it is true that the State Grange is in favor of remedial legislation I have no doubt that a bill will be introduced and that it will become a law."

COLORADO RACING BILL IS DEAD.

Denver, Col., April 26.—The lack of one vote only prevented the passage of the racing bill of Senator Cornforth over the veto of Governor Shaffroth yesterday, when a final attempt was made to obtain favorable action. The vote showed twenty-three senators in favor of the passage of the bill and twelve opposed to overriding the governor's veto.

As this requires a two-thirds vote the measure failed to carry by one vote and is therefore finally disposed of.

JAMESTOWN MEETING OVER

CHARITY BENEFITS FROM CLOSING DAY'S

RACING AT VIRGINIA COURSE.

Two Purses and a Percentage of the Receipts Donated to Charitable Institutions—Meeting

Most Successful in History of Track.

Norfolk, Va., April 26.—The most successful meeting ever given by the Jamestown Jockey Club came to a close with the running of today's program. The day was a perfect one for outdoor sport and a record-breaking crowd turned out. The management set aside twenty per cent. of the receipts for charity. The card was made up of eight races, one of which was for gentlemen riders. This race was not run under the auspices of the Jamestown Jockey Club. A committee of the citizens of Norfolk had the affair in charge and no betting was posted. The winner turned up in Fire Alarm, which made a runaway affair of it, winning easily from Jim.

The feature race, a handicap at five and a half furlongs, brought out a smart field, among them that good racer, Sir John Johnson, making his first appearance in a couple of months. Sir John Johnson had earned many friends by his great performances in the past and it was more a matter of sentiment than for any other reason that the public accepted a short price against his chances. Phil Goldstein had the mount, and but for sharp interference which he suffered when he attempted to squeeze through along the rail in entering the home stretch, he would have won. At the time of the mishap he was moving up courageously and looked a certain winner. Forest Rose furnished the victor in Montclair, which by the way, is a half-brother to Sir John Johnson, both being out of La Tosca.

Frank Nolan, a star of the track, was the victor in the Pimlico, this really good racer will show his heels to better horses than those which finished in front of him this afternoon.

The Rose stable also furnished another winner during the afternoon in The Golden Butterfly, which useful plater took the Charity Purse, which served as the opener. The added money in this race was donated by the owner of the winner to the fund which will be contributed to local charitable institutions.

Muskmelon and Arany were the winning favorites. The latter just did manage to last long enough to beat Bait a nose in his race, while Muskmelon found the task of beating the lot pitted against her in the seventh race an easy one.

Several horses changed hands during the afternoon. Sam Louis purchased Lawton Wiggins at private sale after his race for \$450. J. G. Wagon purchased Semi-quaver of John W. Pangle and James Boland bought Abound of R. T. Wilson.

A few of the stables racing here will ship direct to Toronto, but the majority will go to Pimlico, Tom Hatfield will go to Louisville.

HILDRETH STRING AT PIMLICO.

Baltimore, Md., April 26.—S. C. Hildreth's stable of high-class racers, including Fitz Herbert, Novelty, King James and other stars of the track, are now ready to start at Pimlico in the race paid in the spring meeting of the Maryland Jockey Club, scheduled to open the coming Saturday. Fitz Herbert acted as frisky as a two-year-old when he was unloaded from one of the specially prepared cars in which he made the trip from Sheepshead Bay. The stable of R. T. Wilson, headed by Olambala, came on the same train with the Hildreth shipment, as did other less important strings. In all there were five carloads of horses.

Silas Veitch has arrived from Belmont Park with his string of jumpers and Albert Simons is here from Jamestown with twelve horses, including James Rowe's L.

At the request of Gen. Leonard Wood and Maj. Henry T. Allen, of the war department, the three-quarter mile race for the Army Mounted Service Cup, as offered by the Washington Jockey Club, has been abandoned by the committee of the Maryland Jockey Club, and in place thereof an Army officers' flat race at two miles will be run. There was a general demand that the officers be asked to go over a considerable distance of ground, and the Officers' Gold Cup Race at one mile on the first day will be a good trial test for the longer route.

For the Officers' International Army Service Steeplechase at two miles, to be run on the last day of the meeting, June 3, invitations to participate have been extended to the English polo team now at Lakewood, N. J. The members of the team are Captain Hardress-Lloyd, Capt. H. Wilson, Capt. F. W. Barrett, Capt. Leslie Cheape and Major E. W. Palmer and Noel Edwards.

W. O. Scully is among the old Pimlico habitués glad to get back after a winter campaign. The Kentucky trainer brought Reymour and Garneau from Jacksonville and on his way up spent a few days at Benning and picked up a couple of two-year-olds bred by the late Col. Robert Neville of Pelham, in Fauquier county, Virginia. A bay filly by Ardington—Vernique is named Very Apt, and the other is a black colt by Contract—Fatuitza.

Anthony Allen has a fine lot of jumpers here. Algie is the pride of the stable.

NOTES OF THE TURF.

W. H. Karriek has shipped the horses of F. R. Hitchcock and H. K. Knapp from Long Island to Pimlico.

Matt Allen has purchased Shackleton, a three-year-old chestnut colt by Watercross—St. Orion, from James B. Haggin.

Richard Havey, who served as official timer at the Oakland track of the New California Jockey Club, has nearly lost his sight. He was identified with the thoroughbreds and trotters for over four score years, and in recent years he was best known as a reinsman. He drove Palo Alto horses for several seasons, and had conspicuous success with several of the stars bred by the late Senator Stanford. Mr. Havey had intended to return to the harness sport this season, but his affliction will prevent him from doing so.

JAMES ROWE TO TRAIN WHITNEY STRING.

New York, April 26.—H. P. Whitney's horses, which have been wintering at Red Bank, N. J., will go to Pimlico in the care of James Rowe, who formerly trained for James R. Keene. Mr. Rowe had a chance to train H. B. Duryea's horses in France this year at a tempting salary. Mr. Keene also wanted him to handle his stable in England, but Mr. Rowe decided that he did not care to leave this country, and when Mr

ABANDONED PROFESSION FOR RACING.

Eugene Moyne, owner of Chester Krum and other horses now quartered in the east, is a young New Yorker who drifted into the racing of horses as a profession. When a lad in his teens he nursed an ambition to be a veterinary surgeon and for several years studied medicine with the object in view of branching out as a full-fledged horse doctor. That he did not succeed was not wholly his fault, as an opportunity arose for him to start racing horses and he threw aside his ambition and has made quite a snug sum following the thoroughbred. While young in years, Mr. Moyne has had an abundance of experience. Some twelve years ago he crossed the Atlantic with a shipment of horses as an understudy to a veterinary surgeon whose business it was to look after the health of the equines. After reaching England he traveled around the different tracks of Europe for two years and a half and saw a deal of racing as it was conducted in England, France and Germany. Mr. Moyne then returned to New York and embarked in the sport as a bookmaker. He was successful from the start and a few years ago he started out to get together a stable of his own. Chester Krum is the best horse that has borne his colors to date.

HOW GEORGE DURKER BECAME AN OWNER.

It was by a stroke of circumstance that George Durker, owner of Rosevale and other horses that raced at Oakland the past winter, came to embark in racing. He was a cigar manufacturer of New York, back in the eighties, having learned the trade when a boy, and one day his business interests carried him to the country. There one of his customers had a hard luck tale to unfold which culminated in the proposal of a proposition whereby Mr. Durker would become owner of a thoroughbred for the total of \$92. Mr. Durker was not greatly impressed, but to help the fellow out he led away a horse named Red Robin and made a "bush" meeting campaign with him. The planter was in a bind, and Mr. Durker and this influence Mr. Durker to buy more horses. In 1892 he raced around Gloucester, N. J., and had some experience racing running horses in the snow. Mr. Durker has also campaigned trotting horses on the ice at meetings in Canada.

ADDITIONAL ARRIVALS AT WOODBINE.

Toronto, Ont., April 26.—Trainer Ed Gleason has arrived from London with Hon. Adam Beck's string of thoroughbreds. They are all youngsters, but are a likely-looking lot, including a brother to Photographer, which will be a King's Plater in 1912. A four-year-old maiden, Aramason, by Ornament, which recently worked a half mile in 55½, owned by Mr. Phair of Aylmer, and a three-year-old filly, Sugar Leaf, owned by Mr. Bates of Toronto, are also in trainer Gleason's charge.

STORM PREVENTS PENSACOLA RACING.

Pensacola, Fla., April 26.—A heavy windstorm prevented racing at Kupfrian Park this afternoon. The card for today was declared off and a new one arranged for Thursday. D. B. Freeman will ship his horses Friday to Louisville, and a party of about twenty will start Sunday for Lexington.

THE THOROUGHBRED HORSE.

Major Foxhall Daingerfield Addresses Kentuckians Interestingly on the Subject.

Maj. Foxhall A. Daingerfield, manager of James R. Keene's Castleton Stud and member of the Kentucky State Racing Commission, who is regarded as one of the world's authorities on the racing horse, addressed a meeting of the horse breeders of Kentucky at the State University not long ago on the subject "The Thoroughbred Horse: His Origin and His Uses." A portion of Major Daingerfield's address was as follows:

"My highest ambition in life has been to develop to its highest type and greatest utility every domestic animal. The game cock, fox hound, pointer, setter, short-horn, saddle horse, trotter, etc., and even men have at certain periods of my life interested me, but my environments in recent years have enforced the crystallization of my thought and energies upon the thoroughbred horse.

"The breeds used in the establishment of the English thoroughbred were the Arab, the Barb and the Turk, and horses of these breeds were from time to time imported to England and crossed on the speediest and best of the native English mares, and their progeny by pure eastern sires of one or the other of the breeds named to the fifth generation gave the right to registration as an English thoroughbred. Of the importations to England from time to time of these eastern horses, all did not prove of equal merit as progenitors of speed and endurance—or 'stamina,' as it is termed in horsemanship—the descendants in tail male from Darley's Arabian, the Godolphin Arabian and the Byerly Turk came to be considered the elect lines—the English thoroughbred.

"Later the pre-eminence of certain race horses and sires descended through these and kindred channels brought three horses into such prominence as to constitute their descendants the equine aristocracy of England. These horses were Eclipse, Herod and Matchem. And in England and America and, indeed, in almost all countries where the thoroughbred is known, keeping these lines in due proportion in the pedigrees of their blood stock is regarded a measure of safety.

"The term thoroughbred, when applied to horses, has become synonymous in ordinary usage with a horse entitled to registry, or registered, in the English General Stud Book. This by reason of the establishment in England from eastern infusions of the breed so denominated.

"The American Stud Book, compiled by the late S. D. Bruce, the first volume of which was published in 1873, only eight years after the close of the war between the states, in which Virginia (till then the premier state, since colonial times, in the production of race horses) was completely devastated by contending armies—contains the names of horses satisfactorily proven to be pure bred, but not in all cases by evidence recognized by Weatherly as sufficient, yet which have proven their patrician ancestry and purity of blood by their deeds and produce.

"From early colonial days racing was popular and English thoroughbreds of merit were imported from the mother country. Diomed, by Florioz, out of Juno, by Spectator, foaled in 1777, won the first Epsom Derby in 1780, and was imported to Virginia and died the property of Colonel Hoopes of the state. From him descended in tail male Sir Archy, Timoleon, Boston, Lexington—and all Kentuckians know the rest.

"Glencoe, by Sultan, out of Trampoline, by Tramp, foaled in 1831, won the Two Thousand Guineas in 1834 and was imported by James Jackson of Florence, Ala., in 1836. All the world owes him tribute. His name should be written in capitals and spoken by horsemen with uncovered heads.

"Leamington, imported by R. W. Cameron of Staten Island, N. Y., and Australian (Millington) brought over by A. Keene Richards of Georgetown, Ky., in the year 1858, have left their impress upon our blood stock. Of the many more recent importations some have done good, many have done harm. We have hope, from some now active and great cause, to regret the removal from our shores of a recent importation and more recent exportation which gave more promise as a progenitor from his first than did our remote ancestor of the same name for his.

"My studies and experience teach me in establishing a type close inbreeding is essential. Bates and Booth in the establishment of their unrivaled short horse found it so. The families of horses that have survived have started from closely inbred foundations. How can we expect a male to be more impressive upon his first offspring than his electively bred mates if he has no great concentration of the specific blood element desired than the mate has of some less desirable element which may control?

"Yet, while close inbreeding is the only road to the achievement of a perfect and established type—to the highest results possibly obtainable, it is the most dangerous in the hands of the uninformed or inexperienced, for the reason that perfect soundness (individual and hereditary soundness) must be found in animals of kindred blood to be mated. A tendency to specific weakness may be increased by mating kindred animals having a hereditary tendency to such weakness as certainly as specific strength may be intensified and made a characteristic of the progeny of such close union which will be transmitted to their descendants. This is true of temperament as well as of physical characteristics. My reading and observation give me such faith in heredity that I firmly believe if men and women of purely Puritan stock and kindred blood should intermarry and their children, in each succeeding generation, have an additional (purely Puritan) infusion, the fifth generation would be buying witches, chasing Roger Williams into the wilderness and consigning to eternal hell infants not a span long.

"While the premier position in the equine world belongs to the thoroughbred, it is not solely that he is the best of the sport of kings, but that he is the highest development of type that is essential in imparting desirable qualities to all of the utility breeds. The thoroughbred of highest type is necessarily the one that must to the greatest extent impart his desirable qualities to utility breeds. To enable the thoroughbred breeder to procure or produce the best of his type, a type that exists, the expenditure of the vast sums necessary to procure produce the acme of perfection of its kind or the nearest approximation possible thereto.

"The hunter, the charger, the saddle horse, hackney, cob, French coach (demi-sang), the trotter, pacer and even the better class of horses for general agricultural purposes owe much of their value, their courage, beauty and endurance to thoroughbred infusions, and all would deteriorate without frequent new infusions from this pure source.

"Millions, aye, hundreds of millions of money are lost and thousands of laborers left unemployed by ignorant and prejudiced legislation in this land against an industry fostered by governmental appropriations and official recognition in most civilized and sane countries.

"I never knew a horse to bet, though some 'gamblol on the green.' If a man has the betting instinct he can find an outlet in his automobile, in the jumping frog of Calaveras, in two marbles rolled down a plank, or (I speak only from hearsay as to this) in the relation of little bits of pasteboard with pictures on them in a stuffy room full of tobacco smoke, when he would have no worse temptation and more fresh air in an afternoon's outing at a race course.

"Hysteria is curable and the king will come to his own again in this land of the free, and then those who can will buy the best, and the general improvement of all classes of horses will be revived.

"A few remarks on the method of raising thoroughbreds, which will be found almost equally applicable to the rearing of all other kinds of horses, and I am done. Abundant food, kind and gentle handling, fresh air and ample range are essentials. The only you don't feed your colt, which is to race at two years old, cost more than what you do feed him.

"The mare should be well nourished during pregnancy, and mare and foal should have abundant food and ample range with constant access to fresh water and a trough with salt accessible. Stables should be roomy and so well ventilated as to keep the animals as nearly in the outdoor temperature as possible, in order that they do not chill when turned out for exercise, which they should have all day in winter and half day in summer, except when exceedingly hot at midday.

"The stables I have found best for colts from weanling to yearling form are built in a square with a court within, the outer walls close to the roof, inside boards only the height of the heads of the animals, and the space above and open to the apex of the roof, likewise slatted above the wainscoting which separates the boxes, which should be fourteen by fourteen feet each, or larger if convenient.

"Stallions should have eight or ten miles of exercise on the road daily under saddle and large paddocks in which to graze after such exercise. Their boxes should be twenty feet square and well ventilated. The fences of their paddocks should be doubled four and a half to five feet apart to avoid their coming in direct contact with each other or with other animals. A fence seven feet high of three-inch plank and one stout sapling nailed flat to the top of the fence is the best. The horse is by nature a gregarious animal and should be allowed to see his kind on every part of the farm. With these precautions, a soft-voiced, gentle, quiet-mannered groom, no stallion will ever become a savage, and many a savage in training will become as affectionate as a lady's hackney."

GOVERNMENT BREEDING VENTURES.

Within the past few months England and the United States have devised plans for improving the horse breeding industry by means of the thoroughbred cross. The British Board of Agriculture has set aside \$200,000 for this purpose and the Department of Husbandry at Washington has recommended a grant of \$250,000 cash and \$100,000 per year to send out and maintain 100 Bureau sires.

To use an old expression, this makes it unanimous. Every important country in the world has now taken up the work and Canada with its flourishing National Bureau is leading the Anglo-Saxon race. Men have sometimes wondered why a country like England, the home of the thoroughbred, should be behind other powers in this Bureau work, and why the United States, with thousands of thoroughbreds, did not try to improve the general industry.

The answer may be found in the intense love of the English for the thoroughbred horse. He was thought too good to mate with a farm mare. He was hedged in and safeguarded at private breeding farms. The small breeder and farmer could only look at him over a high paddock fence or see him carrying silken colors on a race course. No sacred bull in India was ever worshiped so much as the thoroughbred in England. His blood must not get into common veins, even if England's cavalrymen waited.

And as every breeder and horseman in Canada knows the same attitude prevailed in this country prior to the establishing of the National Bureau. It was France that first turned the idol loose. The English method had brought the thoroughbred up to the highest state of perfection. Of that there is not a doubt. France took the finished product, no matter what the price, and bred him to farm mares.

Germany, always with an eye on France, noted the rapid improvement in that country's horses and followed her example. The German Master of the Horse, Jarred England by saying that Ard Patrick was none too good to breed to a farmer's drudge, but he was right, nevertheless, and Germany has proved it. France paid \$187,500 for Flying Fox, Russia, after trying different methods, trailed in behind France and Germany, giving \$100,000 for one horse, Galtee More. Austria-Hungary followed, and then Italy, Spain, Japan, Turkey, The Argentine, Brazil, Australia. Every one of these countries have been successful.

Thirty years ago the Russian government started to improve the size and breed of their cavalry horses, having come to the conclusion that the animals used were good, but too small, having a lot of Cossack pony blood in them.

First they tried breeding their small mares to the Percheron, but the produce could not stand the work of arduous cavalry maneuvers and their feet and legs gave out. Then the government sent an expert to England, who, after some delay, decided to try Suffolk and Clydesdale sires. These were sent back to Russia and produced a crop of sturdy looking horses, standing about fifteen hands three inches. But these were not good cavalry horses. They lacked energy and they also lacked "pace."

Again the Russians tried to solve the problem, and this time they hit upon the correct plan, buying English thoroughbred sires. From that time until the present there has never been any doubt as to the efficiency of the Russian cavalry horse.

So great was the success of the plan that before many years no price was too high for Russia to pay for a good thoroughbred sire, and when the Derby winner, Galtee More, was offered for sale, they paid \$100,000 for him.

Now at the time English thoroughbreds were introduced into Russia, the breeding industry in that country was in much the same condition as it now is in the Canadian west. The cow pony, like the Cossack pony, has been crossed with Percherons, Suffolks and Clydes, with practically the same result as in Russia twenty-five years ago.—Canadian Breeding Bureau Bulletin.

THE SQUARE DEAL IN RACING.

The laws of betting, as revised by the British tribunal of turf speculation, the Newmarket Subscription Rooms Committee, are well worth study by that section of the community which, while gambling in stocks, in insurance, in land, and in the commodities of the land, yet has time to give approval and support to any movement to jaff that other section which prefers other speculative objects. The first rule provides that there must be a possibility of winning when a bet is made, or it is void. This is another wording of the old rule that "you cannot lose where you could not win." Herein the code of sport differs from that which prevails in most other fields of human activity. Do you know of any other in which it is an indispensable condition that you shall have an equal break?—Toronto Globe.

JAMESTOWN FORM CHART.

NORFOLK, VA., WEDNESDAY, APRIL 26, 1911.—Nineteenth and last day. Jamestown Jockey Club. Spring Meeting of 19 days. (15 books on.) Weather clear.

Presiding Judge, Edward Cole. Starter, Mars Cassidy. Racing Secretary, F. W. Gerhardt.

Racing starts at 2:30 p. m. (Chicago time 1:30 p. m.). W indicates whip, S spurs, B blinkers. Figures in parentheses following the distance of each race indicate index number, track record, age of horse and weight carried. *Indicates apprentice allowance.

95507 FIRST RACE—5 1-2 Furlongs. (92722—1:06½—2—110.) Purse \$150. (Donated to Charity.) 3-year-olds and upward. Allowances.

Winner—B. f. by Sir Wilfred—Catalpa (trained by L. Garth).
Went to post at 4:44. At post 1 minute. Start good. Won easily; second and third driving. MUSKMELO broke the others and, running into a good lead while rounding the first turn, won all the way under slight restraint and drew away centering through the last furlong. BANG finished well and out-paced WENNA in the dual drive. The latter was a forward contender for the first place, the third place. KILDERKIN closed a big gap and almost got up for third place. MACIAS quit after running in closest pursuit to the stretch.

Scratched—95490 Idle Michael, 8; 95394 Western Belle, 8; 95495 Rampant, 8; 95495 Neva, 8; 95441 Fair Atlanta, 8.

Overweights—Muskmelon, 2 pounds; Star Actor, 3.

Third Race—4-1/2 Furlongs. 3-year-olds and upward. Selling.

3-year-olds and upward.										Selling.		the best time made by the horse at the distance with weight carried, since January 1, 1910. This time is not necessarily made by a winner. It may be the estimated time of a losing performance.

BERT E. GOLLYER

(FORMERLY WITH "CHICAGO AMERICAN")

Having severed my connection with the Chicago American I beg to announce embarking in business for myself. In doing so I retain my track experts who so ably assisted me in the past.

LEXINGTON, LOUISVILLE AND LATONIA

These meetings will be featured. My first special goes Wednesday, May 3 (third race), at Lexington. SPECIAL NO. 2 goes Saturday, May 6. For BOTH of these I am charging the nominal fee of \$3. Send money by express or telegraph. NO OTHER PROPOSITIONS CONSIDERED

Room 309 Oxford Bldg., 118 N. La Salle St., Chicago

Pimlico! Pimlico!

I have a line on several good things that will get the money at this track. My man, who is one of the best clockers in the business, informs me of one that will start and win, barring accident, on the Opening Day. Patrons who have one Winner due them will get a wire on Opening Day. If any change of address, please notify me. My past record speaks for itself. A square deal to all. I will handle PIMLICO, LOUISVILLE, LATONIA and the CANADIAN CIRCUIT all summer.

\$2.00—ONE A DAY. NO MORE—\$2.00

GUARANTEED TO WIN OR NEXT ONE FREE UNTIL YOU GET A WINNER.
